## **Spalding DeDecker Associates, Inc. opens a Livonia Office**

Rochester Hills, MI (January 24, 2012) - Spalding DeDecker Associates, Inc. (SDA), a regional civil engineering, landscape architectural, and surveying firm, opens an office in Livonia.

This office expands SDA's geographical coverage in Michigan and is consistent with their growth initiatives. This will allow SDA to better serve their clients in western Wayne and Oakland counties, as well as Washtenaw and the surrounding counties. Transportation, municipal, construction engineering, land development, landscape architecture, and survey services will be offered through this office. The Livonia office will provide all of the services that our Detroit and Rochester Hills offices provide and SDA clients have come to rely upon.

"SDA's Livonia office was established so we could be very responsive to our clients' needs in the surrounding communities and provide exceptional customer service," said President Steve Benedettini.

Established in 1954, Spalding DeDecker Associates, Inc. is an employee-owned and ISO certified consulting engineering and surveying firm specializing in infrastructure, land development, and surveying. With regional offices in Detroit and Rochester Hills, and branch offices in Cleveland, Livonia, and Monroe, SDA offers a diverse set of skills to clients who seek solutions to construct and maintain their infrastructure. The firm offers municipal engineering, construction engineering, forensic engineering, transportation engineering, land development, landscape architectural, pavement management, and land surveying services.
