Spalding DeDecker Associates, Inc. hires Jenean Robbins, PE as a Construction Project Manager.

Rochester Hills, MI (February 19, 2014) - Spalding DeDecker Associates, Inc. (SDA), a national civil engineering, landscape architectural, and surveying firm, hires Jenean Robbins, PE as Construction Project Manager within their Engineering Department. With 13 years of experience in the engineering industry, Ms. Robbins will manage MDOT and local agency construction projects.

Jenean Robbins, PE received a B.S. in Civil Engineering in 2003 and an M.S. in Civil Engineering (Construction Management) in 2006 from Wayne State University in Detroit. Ms. Robbins holds Professional Engineering licenses in Michigan and North Carolina. She is an NBIS Qualified Program Manager for Safety Inspection of In-Service Bridges and SESC Comprehensive and Storm Water Management Operator. Jenean is a member of the American Society of Civil Engineers.

Ms. Robbins' primary focus has been performing construction engineering services including field inspections and engineering assistance for MDOT projects such as the Detroit Gateway, one of the state's largest construction projects. Ms. Robbins is well-versed in State and Federal design standards and policies and the practical applications for local governments, and is knowledgeable in funding issues. She will skillfully guide the acquisition of additional MDOT prequalifications and will play a significant role in future projects.

"Jenean's experience performing construction engineering and contract administration on MDOT projects makes her a tremendous asset to our clients, particularly those administering federally funded projects. Her enthusiasm and commitment to quality work are what stand out the most when you first meet her. Jenean brings impressive credentials, and we are very excited to have her join the SDA team," said Cheryl Gregory, PE, Director of Engineering.

Established in 1954 and celebrating its 60th year in business, Spalding DeDecker Associates, Inc. is an employee-owned consulting engineering and surveying firm specializing in infrastructure, land development, landscape architecture, and surveying. With regional offices in Detroit and Rochester Hills, Michigan, and San Antonio, Texas, and several field offices, SDA offers a diverse set of skills to clients who seek solutions to construct and maintain their infrastructure. The firm offers municipal engineering, construction engineering, forensic engineering, transportation engineering, land development, landscape architectural, pavement management, and land surveying services.
