

## Lenox Township Hall

Lenox Township, Michigan

In 2005, the Township hired French Associates, Inc. as the design architect for the new Township Hall. The building is 20,000 square feet and was built on the existing Township property just south of the old Township Hall.

French Associates, Inc. hired **Spalding DeDecker Associates, Inc. (SDA)** as the Civil Engineering and

Surveying consultant on the project. The site engineering work included paving and grading design, stormwater management, sanitary sewer, and watermain design.

SDA incorporated various stormwater management measures, including rain gardens and bioretention zones, into the site, and the project is LEED Certified.

SDA's services also included on-site construction observation.
