

Grand Blanc Township Police Station

Grand Blanc, Michigan

In 2005, Grand Blanc Township hired French Associates, Inc. as the design architect for the new Police Station. The building was 25,000 square feet and was built on existing Township property on Saginaw Road north of Dort Highway.

French Associates, Inc. hired **Spalding DeDecker Associates, Inc. (SDA)** as the Civil Engineering and Surveying consultant on the project. The site engineering work included paving and grading design, stormwater management, sanitary sewer, and watermain design.

SDA utilized multiple detention areas and incorporated the large wetland complex on the property into the stormwater management systems. SDA obtained permits from the Michigan Department of Environmental Quality (MDEQ), Genesee County Drain Commission, the Michigan Department of Transportation (MDOT), and the Genesee County Road Commission.

SDA's services also included on-site construction staking.
