

Richmond / Lenox EMS - Station No. 3 Community Development Block Grant (CDBG)

Lenox Township, Michigan

Due to residential and commercial growth along Gratiot Avenue, a new EMS Station No. 3 was proposed at this location in order to improve Emergency Medical Services (EMS) response time. With two stations located in Richmond Township and a new EMS station in Lenox, overall coverage has vastly improved.

The EMS Station No. 3 is located east of Gratiot Avenue, approximately one-half mile north of 27 Mile Road in Lenox Township. The new building is approximately 4,100 square feet. The building has approximately 2,500 square feet of vehicle area (wall bearing masonry building) and approximately 1,700 square feet of operational area.

The project included excavation, concrete, masonry, wood trusses and framing, carpentry, asphalt shingles, steel doors and frames, overhead doors, wood windows, gypsum board, ceramic tile, miscellaneous equipment, plumbing, HVAC, electrical power and lighting, and all related appurtenances. Site work consisted of a new storm pump station, a detention pond, approximately 3,500 square yards of 8" reinforced concrete pavement, 800 linear feet of concrete curb and gutter, 700 square feet of concrete sidewalk, 700 linear feet of storm sewer, service utilities, tree removal and clearing, a dry hydrant system, a dumpster enclosure, lighting and power system improvements, landscaping, and all related appurtenances.

Spalding DeDecker Associates, Inc. (SDA) was responsible for the design and project management of the EMS building and site improvements. SDA provided construction staking and contract administration including inspection and observation, as well as coordination of project progress meetings, resolving site issues, and conflict resolution.

FUNDING & SPECIAL FEATURES

SDA assisted the Township with application and administration of the Community Development Block Grant (CDBG). SDA also coordinated and managed construction work with the architect, utility agencies, Township officials, and program Federal funding agencies.
