

## Sears Holdings Pavement Management Program Nationwide

**Spalding DeDecker Associates, Inc. (SDA)** currently provides pavement management and site engineering services for Sears Holdings' Central to Eastern US portfolio.

Our services include rating asphalt and concrete pavement, obtaining geotechnical information, and developing repair scenarios and projected costs as part of Sears' capital improvement program. SDA also develops construction plans and provides bidding assistance and construction management.

SDA has also provides condition assessments and repair programs for parking structures, roofs, and other non-pavement related projects.

**OWNER / CLIENT**  
Sears Holding Corporation

**PROJECT START - END**  
January 2008 - Ongoing
